The Burbank Police Department is genuinely appreciative of all community members who recently participated in our 2017 Community Study. The response to this study is reassuring to the men and women of the Burbank Police Department who strive to foster a positive working relationship with the community. This effort also reflects the Department and City’s objective to be truly transparent and open.

The results of this year’s Community Study, which are contained in the following report, are taken seriously. The results have been combined with other data to enhance our attention to issues pertaining to speeding and reckless driving, traffic congestion, the transient population, graffiti and gang activity, and residential and commercial break-ins, among others.

The approbation in respect to the Burbank Police Department’s response times, professionalism, courtesy, service-excellence, and fairness are a credit to our personnel. The Burbank Police are committed to meeting and surpassing your expectations of excellent service delivery and treatment.

Our City is not unlike any other community; that is, we all face unique and demanding challenges. The difference here in Burbank is that we seek to continuously improve in every way possible. Consequently, it is not necessary to wait until the next Community Study is conducted in order to identify and address issues facing and concerning our citizens. Simply contact the Burbank Police Department at any time, with any concern. We encourage you to follow the Burbank Police Department on social media and learn more about the services we provide on our website, at www.BurbankPD.org. Members of our community are encouraged to contact our Community Outreach and Personnel Services (COPS) Bureau for questions, concerns, or information regarding any of our community-oriented policing programs.

Again, we appreciate your valuable input. Be assured that we are committed to service excellence, as well as professional and courteous treatment and continued improvement.

Onward and upward,

INTRODUCTION

Effective law enforcement relies on public trust and support, open lines of communication, and community outreach. The Burbank Police Department fosters strong and positive relationships with community members and is committed to community-oriented policing efforts and providing quality police services through continuous evaluation and improvement.

In an ongoing effort to assess and improve the services provided, this community study was launched in March of 2017. The study was developed, distributed and analyzed by the Burbank Police Department. The objective of the study was to gain feedback from the citizens of Burbank and people who have had direct contact with the Burbank Police in order to evaluate our performance, police services we provide, and our handling of issues concerning crime, safety, and quality of life in the City of Burbank.

MISSION STATEMENT

The mission of the Burbank Police Department is to protect life and property, provide professional police services, and work in partnership with the community. This is accomplished through adherence to our core values:

RESPECT
Protect the rights and dignity of all people as determined by the Constitution of the United States and the laws of the State of California

INTEGRITY
Commitment to ethical behavior and acceptance of individual responsibility and accountability for all of our actions and decisions

EXCELLENCE
Quality through continuous improvement
EXECUTIVE SUMMARY

Between March 30, 2017 and April 27, 2017, residents, businesses and visitors of the City of Burbank were asked to participate in an anonymous survey to help critique and evaluate the performance and services of the Burbank Police Department. The survey included questions pertaining to demographics, quality of service, crime and safety issues, quality of life concerns, and community outreach. A total of 830 completed responses were received during the research period, with 181 partial responses and a total of 1,956 survey visits.

Questions in the survey were organized under the following dimensions:

- Respondent information: including gender, age, relationship to Burbank and zip code
- Quality of service; based on recent contact(s) with the Burbank Police Department
- Perceptions of crime, safety, and quality of life issues in Burbank
- Assessments of public confidence and satisfaction with the Burbank Police Department
- Familiarity with various Burbank Police Department programs

Based on the analysis of survey data, the Burbank Police Department received high ratings in this study.

METHODOLOGY

The survey instrument was developed by the Burbank Police Department Community Outreach and Personnel Services Bureau (COPS) with oversight by the Burbank Police Department Administration.

The survey period was four weeks in length and respondents were able to access the questionnaire online; using a computer, phone, or other mobile/web-enabled device. The survey was created with IP restriction in order to reduce the likelihood of multiple responses from the same device and to ensure the credibility of the results.

The study was advertised on the City of Burbank’s website (www.burbankca.gov), Burbank Police Department website (www.burbankpd.org), Burbank Police social media pages (Facebook, Instagram, Twitter and Nixle), and was also covered in a news story by the Burbank Leader.

An outside company, Zoho Survey, was used to create and host the survey instrument. Data was compiled, tabulated and analyzed electronically. Results were then populated and organized in preparation for this final report.

Note: The results reported in this study can only be considered the opinions of survey participants. Not all respondents answered all questions, and the results cannot be generalized to represent the entire city population as a whole. The points of view and opinions expressed herein are representative of the survey participants and are not necessarily representative of the official position or policies of the Burbank Police Department.
**DEMOGRAPHICS**

The first dimension of this study focused on personal and demographic information of the respondent, including:

- The gender of the respondent
- The age range of the respondent
- The respondent’s relationship to the City of Burbank
- The respondent’s zip code in the City of Burbank

QUALITY OF SERVICE

The second dimension of this study focused on the quality of police services provided by the Burbank Police Department. Respondents provided input in the following performance categories:

- Response Times
- Courtesy
- Professionalism
- Helpfulness
- Fairness
- Ability to Address Concerns

This portion of the survey was controlled by skip logic. Question number five (Q.5) required a response from the respondent as to how many direct contacts they’ve had with the Burbank Police Department within the past 12 months. The respondent was only able to provide input regarding quality of service if they reported having at least one contact with the Burbank Police Department.

Of the total survey responses, 41% of respondents reported not having any direct contact with the Burbank Police Department. Therefore, only 59% of survey respondents were able to rate the Burbank Police Department's service in the above-listed performance categories.
