ATTEMPT TO IDENTIFY - GRAND THEFT SUSPECT

SUSPECT INFORMATION

M/A in his 20's or 30's, black hair, wearing a striped button up short sleeved shirt & blue shorts.

Circumstances:

The victim was scammed by receiving a text message from an "800" number claiming his personal bank account would be charged for a McAfee subscription (*McAfee is a computer anti-virus program*). Upon calling the number, the victim spoke to a male who disguised himself as a representative of McAfee. The suspect gained access to the victim's computer and deceived the victim into thinking money was erroneously transferred to the victim's bank account by McAfee when in fact the suspect transferred sums from the victim's savings account to his checking account. The victim later withdrew the money personally and handed it to another suspect who posed as McAfee representative.
